Organised by:

In collaboration with:

2nd Fragility Fracture Network Asia Pacific Regional Congress 2024

FFNAP

13th – 15th June 2024 | Kuala Lumpur
fragilityfracturecongress.com

Message from President of FFN Malaysia and Organising Chair

Dear Esteemed Colleagues, Delegates and Industry Partners,

I am honored to extend my warmest greetings to all of you as we prepare to convene for the 2nd Fragility Fracture Network Asia Pacific Regional Meeting, hosted here in the magnificent city of Kuala Lumpur. On behalf of the Fragility Fracture Network of Malaysia (FFN Malaysia), it is my privilege to welcome you to this significant gathering, taking place from the 13th to the 15th of June 2024. We are honoured that this meeting in Kuala Lumpur is also a collaborative effort between FFN Malaysia, Asia Pacific Osteoporosis and Fragility Fracture Society (APOFFS) and Asia Pacific Geriatric Network (APGN).

The theme for our meeting is **“Holistic Fragility Fracture Care, Driving Systemic Change”**.

Our commitment to advancing the field of fragility fracture care and prevention has brought us together from across the Asia Pacific region and beyond. To drive a systemic change, we need to work together with our concerted efforts to provide a holistic care for patients presenting with fragility fracture. This meeting is an exceptional opportunity for us to collaborate, exchange knowledge, and strengthen our collective resolve to improve the lives of those affected by fragility fractures.

Kuala Lumpur, with its blend of tradition and modernity, serves as an inspiring backdrop for our discussions and endeavours. As we delve into the various facets of fragility fracture management, I encourage you not only to engage in the rich intellectual discourse but also to savour the diverse cultural experiences and warm hospitality that Kuala Lumpur has to offer.

The challenges posed by fragility fractures are substantial, but so is our collective expertise and determination. Together, we can make a significant impact in improving the quality of life for those who suffer from fragility fractures, and we can work toward a future where such fractures are minimized through proactive prevention strategies.

Our programme for this meeting is thoughtfully curated to encompass the latest research findings, best practices, and innovations in fragility fracture care. It is my hope that the knowledge and insights gained here will empower each of us to make a tangible difference within our communities and healthcare systems.

I am excited about the connections that will be forged and the collaborations that will be initiated during this meeting. Let us embrace this opportunity to network, share our experiences, and inspire one another in our mission to reduce fragility fractures and their associated burden.

I wish to express my heartfelt gratitude to each one of you for your dedication to the field of fragility fracture management and your commitment to improving patient outcomes. Together, we can drive positive change and elevate the standard of care for those in need.

Once again, welcome to the 2nd Fragility Fracture Network Asia Pacific Regional Meeting. Let our time together be marked by fruitful discussions, enduring friendships, and a shared vision for a healthier, fracture-free future.

Warm regards,

Joon Kiong Lee

Organising Chair of the 2nd Fragility Fracture Network Asia Pacific Regional Meeting

President of the Fragility Fracture Network of Malaysia (FFN Malaysia)

Message from President of FFN Global

Dear Esteemed Colleagues and Friends,

It is with great pleasure that I extend my warmest welcome to all of you to the 2nd Fragility Fracture Network (FFN) Asia Pacific Regional Congress in Kuala Lumpur. This gathering marks a significant milestone in our collective commitment to advancing healthcare and improving the lives of individuals affected by fragility fractures throughout Asia Pacific.

Fragility fractures are a pervasive and challenging health concern that demands our utmost attention. These fractures not only result in physical pain and disability but also carry a considerable emotional and economic burden for patients and their families. Addressing the multifaceted aspects of care for fragility fractures requires systematic, well-coordinated multidisciplinary teamwork to holistically deliver best practices.

Our congress theme, **“Holistic Fragility Fracture Care – Driving Systemic Change”** underscores the importance of a comprehensive approach to fragility fracture management. We understand that effective care extends beyond just the medical treatment of the fracture itself. It encompasses prevention, rehabilitation, psychological support, and the overall well-being of the patient.

By bringing together experts from diverse fields, we aim to foster interdisciplinary collaboration, share knowledge, and explore innovative solutions to improve the quality of care for fragility fractures. Our programme includes sessions on evidence-based treatments, surgical techniques, rehabilitation strategies, and the importance of secondary fracture prevention. We will also delve into the role of technology, telemedicine, and advancements in healthcare delivery in ensuring that patients receive the best care possible.

I encourage all participants to actively participate in the conference by sharing your research findings, clinical experiences, and insights. I look forward to productive discussions, enlightening presentations, and meaningful connections during the 2nd FFN Asia Pacific Regional Congress. Together, we can shape a brighter and healthier future for all those impacted by fragility fractures throughout Asia Pacific.

Thank you, and let us embark on this journey of knowledge and compassion.

Sincerely,

Frede Frihagen

President of the Fragility Fracture Network

Message from Scientific Chair and FFN Regionalisation Chair

Dear Distinguished Colleagues and Participants,

It is our distinct honour and privilege to welcome you all to the 2nd Fragility Fracture Network (FFN) Asia Pacific Regional Congress 2024, themed around “Holistic Fragility Fracture Care - Driving Systemic Change.” On behalf of the FFN Regionalisation Committee of Asia Pacific and Scientific Committee of this prestigious gathering, we are filled with optimism and enthusiasm for the transformative discussions and insights that will unfold in the coming days.

Fragility fractures are not merely isolated medical events; they are emblematic of a broader healthcare challenge that touches the lives of millions around the world. They are indicative of underlying systemic issues in our healthcare systems, from prevention to treatment, rehabilitation, and beyond. Our theme, **“Holistic Fragility Fracture Care- Driving Systemic Change”** reflects our commitment to address the 4 pillars of fragility fractures comprehensively which include orthogeriatric approach in acute care, prompt rehabilitation, comprehensive secondary prevention and formation of national alliances to drive policy change.

Our conference provides a platform for leading experts, researchers, and practitioners from diverse fields to converge, exchange knowledge, and forge collaborations that can lead to significant systemic change. We will explore ground breaking research, evidence-based practices, and innovative technologies that can revolutionize fragility fracture care. Equally important, we will engage in dialogue about policy and structural changes necessary to ensure that holistic care becomes the standard of practice, rather than the exception.

As we embark on this journey, we encourage all participants to actively contribute their expertise, share their research findings, and propose strategies for driving systemic change in the realm of fragility fractures. Together, we can bridge the gaps in our healthcare systems, advocate for policy reforms, and foster a culture of prevention, compassion, and excellence in care.

We are eager to witness the inspiring discussions, collaborative efforts, and tangible outcomes that will emerge from this congress. Let us collectively pave the way for a future where holistic care is not an aspiration but a fundamental right for all individuals affected by fragility fractures.

The Fragility Fracture Network: A Global Alliance to Improve Care

The Fragility Fracture Network (FFN) is a multidisciplinary alliance of healthcare professionals, researchers, and advocates who are dedicated to improving the prevention, treatment, and rehabilitation of fragility fractures. Founded in Europe in 2011, the FFN has grown into a truly global network with leadership and membership coming from all regions of the world.

The FFN is committed to promoting a comprehensive approach to fragility fracture care, including:

- **Multidisciplinary care:** The FFN advocates for multidisciplinary care teams that include orthopaedic surgeons, geriatricians, rehabilitation specialists, and osteoporosis experts. This approach ensures that patients receive the best possible care from a team of professionals with expertise in fragility fracture management.
- **Rehabilitation:** The FFN recognizes that rehabilitation is essential for helping patients recover from fragility fractures and return to their best functional status. The FFN promotes access to high-quality rehabilitation services for all patients with fragility fractures.
- **Secondary prevention:** The FFN is committed to preventing subsequent fragility fractures in patients who have already had one. The FFN advocates for policies and programs that promote bone health and reduce the risk of falls.
- **Policy change:** The FFN works to advocate for policies that support the prevention and treatment of fragility fractures at the national and international levels. The FFN believes that everyone deserves access to high-quality care for fragility fractures.

The Fragility Fracture Network Malaysia: Improving Care for Fragility Fracture Patients in Malaysia

The Fragility Fracture Network Malaysia (FFNM Malaysia) is a national network of healthcare professionals and advocates who are dedicated to improving the prevention, treatment, and rehabilitation of fragility fractures in Malaysia. The FFNM Malaysia is aligned with the global FFN in its mission and goals.

The FFNM Malaysia is working to:

- Create a national network of fragility fracture experts from different states throughout Malaysia
- Generate priority for fragility fracture care in all hospitals throughout Malaysia.
- Spread the best multidisciplinary practice (ortho-geriatrics and rehabilitation) and systems of care for managing fragility fractures nationwide.
- Ensure that every fragility fracture becomes an opportunity for preventing further fractures by promoting fracture liaison service nationwide.
- Promote research aimed at improving the quality of fragility fracture care and to establish fragility fractures registry, in particular national fragility fracture registry for hip and non-hip fractures.
- Establish guidelines and standard of best practice in managing various fragility fractures in order to allow patients to return to their best functional status.

The FFN and the FFNM Malaysia are valuable resources for healthcare professionals and patients alike. Both organisations are working to improve the prevention, treatment, and rehabilitation of fragility fractures worldwide and in Malaysia, respectively.

Call For Abstracts

**Abstract
Submission
Closes**

25th February 2024

**Abstract
Results After**

12th March 2024

**Registration
Deadline**

25th March 2024

Abstract Submission Guidelines:

1. Please use the abstract template above for spacing and organization of subsections. (Abstract that does not adhere to the abstract template will not be accepted for review).
2. Abstract template can be downloaded above.

Abstract Content:

1. Original Article
2. Introduction (Including Objectives)
3. Materials And Methods
4. Results
5. Discussion
6. Conclusion

Abstract Guidelines:

1. Must not exceed 350 words including title.
2. Restricted to only ONE page.
3. Font size: 12.
4. Font Type: Times New Roman.
5. Spacing and Alignment: Single spacing and justified fields.
6. Figure / Table: Up to 3 figures including graphs and tables, etc. are allowed in each abstract. (The font size within the figures must be clearly visible and must not be less than size 10).
7. Format Layout: 2-column page.
8. Margin: 0.75" (1.9cm) margin.
9. If the abstract contains identifiers e.g. name of hospital in the text body, the authors need to underline them in order for the secretariat to omit them when it is sent for evaluation.
10. File submitted must be in Word document not more than 2.5MB.
11. Final poster presentations may have more tables and charts than the successful abstracts.

Categories:

1. Acute management of fragility fractures
2. Rehabilitation
3. Secondary prevention of fragility fractures
4. Policy or practice changes

Call For Abstracts

Frequently Asked Questions

Must The Submitter and the Presenter be the same person?

Yes, the submitter and presenter must be the same.

Can I submit more than 1 abstract?

Yes, you may submit more than 1 abstract. The account login you create will allow you to submit multiple abstracts.

Which email should I use to create the account?

When you create your account, the email you use should be the same email for all correspondence and e-certificates to be delivered to. For Malaysians, please use the same email address which you use for your CPD points.

What happens if I want to amend my abstracts after I have submitted?

You may amend your abstracts until the 25th February 2023, after which you will not be able to amend your abstract anymore. The responsibility is on the abstract submitter to ensure that the contents uploaded into the abstract is correct and have been proofread for errors.

What happens after abstract submission deadline closes?

1. All abstracts will be reviewed by the Scientific Committee.
2. The Committee reserves the right to select the abstracts relevant to the sessions and decide on the final form of presentation.
3. The results will be announced after the 12th March 2024.
4. All successful abstract submitters and award finalists must complete the registration process on their online account before the 25th March 2024 to qualify and present during the meeting.

Terms and Conditions

1. The research work submitted must be conducted substantially by the applicant.
2. The work must be original and must not have been presented in conferences or published previously.
3. All successful abstracts which are accepted for oral and e-poster presentation agrees that their oral and e-poster will be presented during the meeting. The oral and e-poster will become the permanent property of FFNM and may be read, download, copy, print, search and distributed; provided the authors are properly acknowledged and cited.
4. Please refer to conference website for the latest information. Conference website content will supercede this announcement as the planning of the meeting progresses.
